

50TH ANNIVERSARY SHELBY G.T.500KR

Shelby American's "King of the Road" G.T.500KR represented the apogee of horsepower and torque in a Ford platform as the muscle car era began to close. The "King of the Road" connected a cast iron version of Ford's FE big block 428 c.i.d. engine with the choice of a manual or automatic transmission. The Shelby also featured high performance brakes and suspension, as well as a host of special styling touches inside and out.

The 1968 Shelby Continuation G.T.500KR – available in both fastback and convertible body styles – will pack even more big-block punch. It will be sold with a 427 c.i.d. engine from Carroll Shelby Engine Co. in either aluminum or cast iron. The Shelby can be equipped with either a manual or automatic transmission.

Drivetrains will be installed in 1968 Mustang donor cars, with factory VINs intact. Shelby spec suspensions and brakes will be included. Any standard Shelby colors from 1968 can be chosen as the cars will be built to order. Like the 50th anniversary edition Shelby Cobras, anniversary badges will be added to the cars.

Limited to 10 fastback and 10 convertibles – these continuations will be outfitted like their 1968 counterparts and listed in the Shelby Registry. For the first time in 50 years, a genuine 1968 "King of the Road" is available through Shelby American.

50TH Anniversary Shelby G.T.500KR
